

AJEET YADAV

Data Analyst(3 Years)

ajeetsinghyadav27299@gmail.com | +91 7530898531

TECHNICAL SKILLS

MS Power BI, SQL – MySQL, MS Excel, Power BI Report Builder (Paginated Report) , Pentaho ,Data Modeling ,Power Query, Extract Transform & Load (ETL) ,Power BI Apps, Power Automate(Flow), Data Transformation. Data Visualization , Requirement Gathering ,Power BI Services. Figma Design

WORK EXPERIENCE

Software Developer

06/2024- Present

Trio Tree Technologies Pvt Ltd

- Developed and published Power BI reports, utilizing **visualization charts** and **tables** to meet **client requirements**. Implemented **Row-Level Security (RLS)** to secure data and optimized performance by transforming data in **Power Query**.
- Created and **optimized SQL queries** using **window functions** and aggregated functions. Also use **Filters,, Joins, Functions, Sub Queries, CTE's** etc,

Power BI Developer

11/2021- 03/2024

Gnap Services -Client -Nokia Network

- Directed **project documentation** and **requirement gathering**, translating needs into **visualizations**. Delivered analytics solutions to **30+ mobile** networks, saving **1000+** manual hours of 20+APAC countries..
- Proficient in **Power BI** for comprehensive report creation, utilizing features such as **slicers, filters, Bookmarks**, and **drill through**. Experienced in **data modeling** implementing **Row Level Securities (RLS)** for data protection.
- Skilled in workspace distribution via **Power BI Apps**, automating report sharing with **Power Automate (Flow)**, and managing **workspace** sharing across organization and clients. Familiar with **SSRS Report Builder** for **Paginated report development**.
- Demonstrated expertise in advanced visualization customization to meet **client requirements**. Engaged in project planning sessions to analyze **business requirements**, creating **Power BI Dashboards** tailored to client needs. Utilized extensive Power BI functionalities including data exploration, **security implementation (RLS,PLS)**, **Gateway management**, report publication, and **scheduling refresh**. Proficient in **DAX functions**, query development, and presenting **weekly updates** to **stakeholders**.
- Usage of SQL Commands, **Filters, Aggregations, Joins, Functions, Sub Queries, CTE's, Analytical functions**, in day-to-day tasks .

PROJECTS EXPERIENCE

License to work -(L2W) [Client : Nokia]

- Developed various visualizations using custom visuals like **Bar Charts** and **line charts**. Cleaned data using different **transformations** in **edit queries**. Developed **Key Performance Indicators** to **monitor licenses** and worked on table and **matrix visuals** with different levels of **filters**. Optimized **SQL queries** and Implemented **Power BI Gateways** for up-to-date reports .
- Used complex **DAX** calculations to identify **missing licenses** for **FST/Crewmen**. Created a bar chart to display the count of missing licenses by market and a table detailing missing licenses for FST/Crewmen. Utilized **drill down** and **drill up** functionalities for **deep analysis**..

Discharge Dashboard Report [Trio Tree Technologies]

- Designed and implemented a dynamic main dashboard featuring multiple **Key Performance Indicator (KPI)** cards such as **Total Discharges, Bed Occupancy, Discharge at a Glance, Discharge Time, Discharge Destination**, and **Length of Stay**, with **dynamic visibility** configurable through **dashboard settings** located at the bottom of the **side navigation bar**. Use **SVG in the table** to make the table **scrollable** with **KPI indicators**.

CERTIFICATIONS

Power BI Certification From MIS & Analytics institutes

PL300 Data Analyst Certification From Microsoft

EDUCATION

Delhi College Of Arts & Commerce

B.com (Hons)

2016-2019
