PROFILE SUMMARY

Data Analyst with 3+years of relevant experience (out of total ~7 years) in Data Analysis, who has extensively worked on & possesses sound understanding in the areas of Data Visualization(Power BI), Data Modeling, MYSQL & python libraries. In 2021, I have Transitioned from hands-on production and maintenance to data-driven decision-making to optimize operational processes

SKILLS

Power BI

Data Modelling, DAX, Power Query

Databases

MYSQL

Python

pandas, numpy, matplotlib, seaborn

PROFESSIONAL EXPERIENCE

PowerBi Developer, RGI Meditech Pvt. Ltd.

Aug 2023 – present
Noida, India

- Extract Data: Utilized SQL to extract and aggregate sales data for trend analysis over the past two years.
- Transform Data: Cleaned and transformed sales data to prepare it for analysis.
- Load Data: Loaded transformed data into Power BI for visualization and analysis.
- Analyze Trends: Created visualizations in Power BI to identify sales trends and patterns.
- Plan and Forecast: Used Power BI's forecasting and scenario analysis features for future sales planning.Utilized Power BI to analyze production data, integrating sources such as SQL databases, and Excel files.
- Analyzed product defect data to identify root causes and implemented corrective actions, resulting in a 25% reduction in defect rates.
- Develop interactive dashboards on complex data using power query and DAX, making the data more accessible, usable, and understandable.
- Generated weekly and monthly reports on key performance metrics, such as production output, quality control metrics, to inform decision-making processes.

- Analyzed the changeovers & Prepared Gantt chart for Size & Grade changeovers of Adult pull ups Machine & Wet wipes to standardize the changeover time.

Data Analyst, Niine Pvt. Ltd.

Jun 2022 – Aug 2023
Gorakhpur, India

- Maintenance cost management.
- Costing analysis machine wise of baby-care & feminine care machines. (utility cost, spare part cost visualization using PowerBi dashboard)
- Profile cutter & flat cutter cutting count analysis to improve the life of cutters.
- Attending cross functional team meetings & preparing tasks for the maintenance department accordingly.

Senior Engineer, Unicharm India Pvt. Ltd.

Jul 2017 – Jun 2022
Neemrana, India

- Kaizen ppt preparation & presentation on monthly basis.
- Developed and maintained Power BI dashboards to track key production metrics such as machine performance, downtime, and defect rates
- Experience in updating data to maintain departmental records and databases.

ROLES & RESPONSIBILITIES

- Write and optimize complex SQL queries to retrieve and analyze data efficiently.
- Designing and developing BI reports using Power BI Desktop and Power BI Services.
- Generated advanced Power BI dashboards with page/visual level filters, RLS, hierarchies, measures and calculated fields that allowed to track and improve customer units KPI.
- Implemented drill through, bookmarks, bar chart, tabular reports, cards and various KPIs in Power BI.
- Used DAX function to create calculated columns and measures.
- Using Power BI Gateway to keep the dashboards and reports updated. Good Exposure to Power BI data modeling concepts.
- Performing basic ETL transformation through edit queries.

EDUCATION

Bachelor's of Technology,

Hindustan college of Science & technology(AKTU)
Aggregate 74.5%

Jul 2013 – Jun 2017
