Manage sales quotations and orders

=====

This application allows you to manage your sales goals in an effective and efficient manner by keeping track of all sales orders and history.

It handles the full sales workflow:

* **Quotation** -> **Sales order** -> **Invoice**

Preferences (only with Warehouse Management installed)

If you also installed the Warehouse Management, you can deal with the following preferences:

- * **Shipping:** Choice of delivery at once or partial delivery
- * **Invoicing:** choose how invoices will be paid
- * **Incoterms:** International Commercial terms

With this module you can personnalize the sales order and invoice report with categories, subtotals or page-breaks.

The Dashboard for the Sales Manager will include

- * **My Quotations**
- * **Monthly Turnover (Graph)**
