

# ADVANCED GLASS SOLUTIONS FOR MODERN MOBILITY.

---

## ABOUT US

With over **15 years of industry experience**, we have built a strong foundation in precision-driven manufacturing and high-performance glass solutions. Building on this expertise, we have now launched a dedicated venture focused exclusively on automotive vehicles, bringing world-class glass technology to the automobile sector.

We manufacture high-precision automotive glass designed to enhance safety, durability, and driving comfort. Powered by advanced production technology and strict quality standards, our products align with global benchmarks and evolving OEM requirements.

**From defogger backlites and door glasses to full customized sliding windows and other automotive applications.** Our team works closely with automotive brands to ensure superior fit, consistent performance, and long-term reliability on every road.

With an expanding global footprint, we are already exporting to multiple international markets including **America, Saudia Arabia, parts of Middle East, Africa, Sri Lanka, Nepal, Bhutan, Bangladesh** etc reflecting the trust and acceptance of our quality worldwide.

Grounded in technical excellence and innovation, we continue to push the boundaries of automotive glass manufacturing - delivering solutions that protect passengers, improve visibility, and elevate the overall driving experience.

## MISSION

To manufacture world-class automotive glass that combines innovation, safety, and precision engineering. We aim to deliver reliable, high-performance solutions that strengthen the quality of every drive.

## VISION

To become the most trusted global partner in automotive glass solutions by continually advancing technology, enhancing product standards, and contributing to a safer, more efficient mobility ecosystem.
